

## 8 Jul 2024 | 📅 MNET x CCA cooking session

Attendees: hmac0023@student.monash.edu Sabi Fernan Jackie Hai Ho  
jkar0030@student.monash.edu ncha0085@student.monash.edu Phoebe Zhang  
Richard Liu Rohan Kalanje Rajesh stai0011@student.monash.edu

### Notes

#### Workshops and Seminars:

- **Event:** Host joint workshops and seminars on topics like data analytics in business, the role of XR in commerce, and cybersecurity in financial tech.
- **Collaboration:** MNET can handle the technical content, while CCA can cover the business implications and use cases. This ensures that attendees gain a holistic understanding of the topics.

#### Networking and Career Events:

- **Event:** Co-host networking events with industry professionals from both the tech and business sectors.
- **Collaboration:** Both clubs can leverage their industry connections to bring in a diverse set of speakers and attendees, providing students with a broader networking base.

#### Tech and Business Expo: (big ticket) this fit fest next year ?

- **Event:** Organise an expo showcasing innovative projects and startups at the intersection of technology and business.
- **Collaboration:** MNET can display technological innovations and prototypes, and CCA can present business plans, market research, and potential investment opportunities.

#### Event Name: "TechFusion: Bridging Business and Emerging Technologies"

**Description:** A two-day event featuring workshops, panel discussions, and a mini-hackathon where participants work in interdisciplinary teams to develop innovative solutions addressing current market needs. The event will culminate in a pitch competition where teams present their solutions to a panel of judges from both the tech and business industries.
